PRIMARY · BRITTANY SCRIPT IN INK

SOCIAL MEDIA STRATEGIST & CONTENT
CREATOR

SECONDARY · AGRANDIR GRAND BOLD
UPPERCASE LOCKUP

- Primary wordmark is the name set in Brittany, in Ink (#000000), on Cream, Pink or White backgrounds. On the yellow gradient, keep it Ink.
- Secondary lockup is Agrandir Grand Bold uppercase with wide letter-spacing, used where script would be too decorative (footers, small print, dark surfaces).
- Clear space: keep at least the height of the capital "M" free on all sides of either mark.
- Do not stretch, outline, add drop shadows to, recolour outside the palette, or set the wordmark on busy photography without a scrim.
- Never pair the wordmark with any other brand's logo or colours.

BRAND GRADIENT · HERO BACKGROUNDS & FEATURE BANDS

 Yellow #FFD300 Primary · backgrounds, highlights, CTAs	 Pink #FFBBDA Soft accent, feature bands, frames	 Cream #FAF2E9 Base surface	 Grey #575757 Captions, secondary text	 Black #000000 Body text, wordmark, dark surfaces
 White #FFFFFF Cards, clean space				

How to use it: Yellow leads as a background and highlight, never as text. Pink softens and warms feature bands and photo frames. Cream and White carry the layouts. Black does the talking and Grey handles captions. Body text is always Black on light surfaces, never a pale tint on cream. Because Yellow and Pink are too light to read as text, always pair them with Black type on top.

HEADINGS & SCRIPT ACCENT

Agrandir Grand Bold

Brittany

Agrandir Grand Bold: all headings and the uppercase lockup, in Black. **Brittany:** her name, hero flourishes and single emphasised words inside headings. Never set Brittany in body copy, buttons or captions. Keep it rare so it stays special.

Hero name: 52 to 84px · **Heading flourish:** 28 to 40px

BODY & UI

Montserrat carries the rest

Weights 400 to 800. Clean, friendly and modern. Body copy sits at 15 to 16px with relaxed line height.

Eyebrow labels: Montserrat 600, uppercase, 2.5px letter-spacing, Black, ~12px. **Headings:** Agrandir Grand Bold in Black.

H1: 32 to 44px · **H2:** 24 to 28px · **Body:** 15 to 16px 400 · **Caption:** 12 to 13px 500

Web note: Agrandir Grand Bold and Brittany are licensed fonts. Until their web font files are added to the site, the live pages use free stand-ins that keep the same feel: **Archivo** (heavy) for Agrandir and **Sacramento** for Brittany. Montserrat is the exact web font. Swap in the licensed files to match the brand precisely.

08 · QUICK RULES

Do and *don't*

DO

- ✓ Lead with Yellow and the brand gradient as backgrounds.
- ✓ Set body text in Black on Cream, White or Pink.
- ✓ Keep Brittany for the name and rare accents only.
- ✓ Use pill buttons: Yellow or gradient fill, Black Montserrat 600 text.
- ✓ Use real photos and honest, plain language.
- ✓ Leave placeholders where a real proof point is still to come.

DON'T

- ✗ No colours outside the six-swatch palette. No old orange or sunset tones.
- ✗ No ForeShiloh logos, colours or straplines. This is Meg's brand.
