PRIMARY · KAUSHAN SCRIPT IN FLAME

SOCIAL MEDIA STRATEGIST & CONTENT
CREATOR

SECONDARY · POPPINS UPPERCASE LOCKUP

- Primary wordmark is the name set in Kaushan Script, always in Flame (#ff5a2e), on Blush, Cream or White backgrounds. On the sunset gradient, use White.
- Secondary lockup is Poppins 800 uppercase with wide letter-spacing, used where script would be too decorative (footers, small print, dark surfaces).
- Clear space: keep at least the height of the capital "M" free on all sides of either mark.
- Do not stretch, outline, add drop shadows to, recolour outside the palette, or set the wordmark on busy photography without a scrim.
- Never pair the wordmark with any other brand's logo or colours.

SUNSET GRADIENT · HERO BACKGROUNDS & PRIMARY CTAS

 Flame #FF5A2E Primary · wordmark, CTAs	 Orange #FF7A3C Warm support	 Coral #FF6F61 Accents, photo frames	 Hot Pink #F0609E Magenta-pink accent	 Pink #F79ABF Soft pink family
 Blush #FCDBE6 Light pink surface	 Cream #FBF3EA Base surface	 Ink #2A2622 Body text, dark surfaces	 Muted #8A7F77 Captions, secondary text	 White #FFFFFF Cards, text on gradient

How to use it: Flame leads. The pink family (Hot Pink, Pink, Blush) softens and warms. Cream and White carry the layouts. Ink does the talking. Body text is always Ink on light surfaces, never light grey on cream.
